

NEW FOR FALL 2026

Biology, your way. Hybrid.

Every video, activity, and assignment was built from scratch by your professor — someone with years of experience designing biology courses. You get the same expert content as the traditional lecture, plus weekly small-group sessions where you get hands on with the concepts.

TRADITIONAL SECTION

Large Lecture Only

- 160+ students per lecture
- 3 hours of lecture each week
- Homework & quizzes outside class

✦ HYBRID SECTION

Lecture + Small Group

- 1 hr whole-class lecture with your professor (150 students)
- 1 hr active learning in groups of 25
- Self-paced online content for tough topics
- Small group hands-on problem solving

WHY HYBRID?

Expert-Designed Content

Every lecture, video, and activity was built by a professor with years of experience teaching and designing biology courses.

Learn by Doing

Active learning sessions every week — not just note-taking. Work through problems with classmates and your TA.

Flex on Hard Topics

Struggling with something? Online content lets you pause, rewatch, and learn at your own pace between sessions.

25

students per
small group session

2×
